

SERIES OF "UNLUCKY DAYS" MAY PREVENT MINERS FROM STARTING WORK BEFORE MONDAY

Not Wise to Begin Friday and Saturday Is 13th, So Resumption Is Deferred.

OFFICIAL ORDER IS LATE

Operators Have Plans in Readiness For Men When They Choose to Return; Many Workers Said to Be Anxiously Awaiting Official Order.

By Associated Press.

PITTSBURGH, Dec. 11.—Not a union mine in the Pittsburgh district resumed operation today as a result of the action taken by the United Mine Workers of America in Indianapolis yesterday, but it was expected the men would be back to work not later than Monday. Local headquarters of the union was without official information that the strike had been called off and one of the office force volunteered the information that nothing could be done until this order was received.

"Mine owners had their mines prepared for immediate resumption as soon as the men reported for work and there were reports that many miners were anxiously awaiting the required order."

At best, it was said, the men could do little before Monday. Friday is generally looked upon as a "bad luck day" and so is the 13th of the month, which falls on Saturday. On neither of these days operators said would many men feel like resuming work after the suspension.

PRESIDENT WILSON WIRE

ON GRATUITATIONS TO LEWIS WASHINGTON, Dec. 11.—President Wilson today telegraphed Acting President Lewis of the coal miners' union his appreciation of the "patriotic action" taken by the miners' representatives yesterday at Indianapolis. The telegram follows:

"May I not express to you and through you to the other officers of your organization my appreciation of the patriotic action which you took at Indianapolis yesterday. Now we must all work together to see to it that a settlement just and fair to everyone is reached without delay."

W. V. MINERS MAY NOT GET STARTED BEFORE MONDAY

CHARLESTON, W. Va., Dec. 11.—No change in the coal situation in the Kanawha valley, where the strike of the United Mine Workers of America under the strike ending order for several days, it was stated today. Official notices that the strike has been called off were sent out today and it was expected they would reach the men in time for them to return to work next Monday. The special grand jury called to inquire into violations of the federal law in connection with the strike was convened today and immediately resumed its afternoon session. More than 100 witnesses have been summoned.

GREY RECALLED

British Ambassador to Return to England on Leave.

WASHINGTON, Dec. 11.—Viscount Grey, British ambassador to the U. S., notified Secretary Lansing today he was returning to England on leave on Monday. Lord Grey will return to Washington in connection with the possibility of his being able to arrange his private business interests, and upon the decision of the British foreign office as to whether he alone can carry forward the great projects of common action by America and Great Britain in the reorganization of finances of commerce and international relations.

Lord Grey has been in America less than three months and expects to leave about the beginning of the year.

STEAMER SAFE

Carman Proceeds Under Own Steam After Collision.

MALIBAX, N. S., Dec. 11.—Messages from the British steamer Carman, which collided with the steamer Maryland about 500 miles off this port yesterday, indicated that she would make port under her own steam some time tomorrow.

The Carman, which has a large number of Americans aboard, reported that her damage was above the water line and that she was in no danger.

Harvard to Play in West.

CAMBRIDGE, Mass., Dec. 11.—The Harvard University football team will play a western eleven at Pasadena, California, New Year's day. The committee on athletics today voted to recall its refusal of an invitation from the carnival of roses committee at Pasadena, in view of the improved coal situation.

Dr. Cille to Operate.

Francis J. Stader will leave tonight for Cleveland, O., where his mother, Mrs. J. L. Stader will undergo an operation for appendicitis on Saturday. The Lakeside hospital, Dr. George Cille, the noted specialist, will be the operating surgeon.

FUEL CONSERVATION WILL BE NECESSARY FOR LONG TIME YET

End of Strike Does Not Mean Immediate Increase of Production to Normal.

With the bituminous miners' strike called off and the men back at work, the question arises: How long will it be before production is sufficient to warrant lifting of restrictions on fuel, light and power? To this there is no correct answer.

The statement issued by the Fuel Administration says: "A careful survey of the coal situation indicates that even if there is a prompt settlement of the coal strike, it will take some time to adjust the country to a normal basis and therefore certain restrictions will have to be placed on the consumption of bituminous coal."

Some coal men say it will take weeks to get things anywhere near normal. Others put it at months. A statement from Regional Director of Railroads L. W. Baldwin to federal managers in the Allegheny district indicates that municipal and county officers will be required to see that the fuel restrictions placed by the government are enforced. Civic societies, chambers of commerce and boards of trade will be asked to assist. Mandatory restrictions, it is believed, will not be necessary in fact, the acute shortage of coal will make it imperative for all big industries to burn it sparingly.

No official notification, other than that printed in the newspapers will be given: Buildings, stores and plants which generate their own heat, light and power with anthracite or fuel oil are not included in the regulations; neither are those securing power from hydro-electric plants.

TELL OF CRUELTY

Soldiers Tell of Being Beaten Up by Order of Captain Deizer.

By Associated Press.

NEW YORK, Dec. 11.—Testimony that Captain Carl W. Deizer had struck military prisoners in France on the face of a sergeant, and "beat them up" in order to force "confessions," was given yesterday by three witnesses when he was placed on trial at Governors Island. The offenses with which Captain Deizer is charged occurred while he was in command of the 308th Military Police Company.

George E. Williams of Corning, Iowa, discharged private, testified that after he had been slapped by Deizer the captain ordered Sergeant U. Stephen Madden and Frank L. Hoyt "to take him out in the yard and make him come clean." Williams declared that while Hoyt held his hands behind his back Madden beat him until, fearing he was to be "killed," he had signed a statement which he believed was to the effect that he had no permanent private property.

Private John J. Adams, now attached to the Fifth Guard Company at Governors Island, testified that, after having been "picked up" on the street at a time when he was an attending patient at a base hospital, he had been beaten by Sergeant Hoyt.

McAdams said he had signed a statement prepared by Hoyt because he was in fear of his life, not only from the beating he said he had received, but by the appearance of Captain Deizer and his men, "armed with guns and black jacks."

Samuel G. Roth of Chicago, who once had been Deizer's desk sergeant, testified that he had seen Deizer violate his own order by striking two prisoners. He also testified that Sergeant Madden and Hoyt had kept McAdams and Williams standing at attention for a long period and that after he had still refused to tell the whereabouts of a stolen pistol, Warren had been beaten up, although not so far as he knew, by Deizer's orders. He said that today Warren had "confessed," but that when this confession was found to be untrue he was beaten again.

Co-eds Fight Fire.

SWATMORE, Pa., Dec. 11.—Co-eds of Swatmore college aided firemen from five towns today in fighting a fire which destroyed two upper floors of an apartment, fatality and store building here. The loss is estimated at \$5,000. It is believed a lit cigarette thrown on the floor during fraternity meetings smoldered after the rooms were closed and caused the fire.

Smoker Will Be Prohibited.

The will of Michael K. Smoker, late of Steelville, was probated Wednesday in the Westminster county courts. The estate is valued at \$3,850 and the widow, Louisa W. Smoker, is the executrix. She receives the estate for life, or so long as she remains the widow of the deceased. She is also testamentary guardian of her three children.

NEW FRICK SCALE, EFFECTIVE DEC. 1, POSTED YESTERDAY

Applies 14 Per Cent Advance to All Classes of Mine and Yard Labor.

NEW MINING RATE \$2.66

For Pick Work in Rooms and on Ribs; Day Men Get .60 to 70 Cents More; Drawing Coke Increased 20 Cents; Laying Ovens Three Cents Each.

The new scale of wages, which became effective on December 1 at the mines and coke plants of the Connellsville region, was posted at 1 o'clock yesterday afternoon at the plants of the H. C. Frick Coke company. With fractional differences in several classes of work the scale is the same as was published in The Courier at the time of the announcement of the advance.

The increases provided by the new scale over that of November 10, 1917, which it replaces, are as follows: For mining and loading room and rib coal, per 100 bushels, 37 cents; mining and loading, heading coal 40 cents; wet leading coal 45 cents; loading machine coal, 23 cents; drawing coke, 20 cents; oilers, rope riders, cagers, tracklayers, blasters and timbermen, 70 cents per day of eight hours; assistant tracklayers and timbermen, 60 cents; fire bosses, \$1.00; mine laborers, 60 cents; outside laborers, 70 cents; hand leveling, per oven, three cents.

The following shows the new scale in comparison with the scale of November 10, 1917:

	Dec. 1, Nov. 10, 1919	1917
Pick mining and loading, room and rib coal per 100 bushels.....	\$1.66	\$1.29
Pick mining and loading, heading coal per 100 bushels.....	1.40	1.00
Pick mining and loading, wet leading coal per 100 bushels (pick miners to drill holes and furnish powder).....	1.16	.75
Loading machine coal per 100 bushels (company to drill holes and furnish powder).....	1.88	1.60
Drawing coke per 100 bushels charged.....	1.64	1.44
(All above by same measurement as at present)		
Oilers, rope riders, cagers, track layers, blasters and timbermen per day, eight hours work.....	70	60
Assistant track layers and timbermen per day, eight hours work.....	60	50
Fire bosses per day, eight hours work.....	1.00	.80
Mine laborers per day, eight hours work.....	.70	.60
Outside laborers per day, eight hours work.....	.70	.60
Leveling, per oven (hand).....	.03	.02
Outside day labor per day (nine hours work).....	.40	.30

ADJUDGED INSANE

Self-confessed Murderer Will Be Committed to an Asylum.

After an examination of John Salek, self-confessed murderer of a Republican foreigner, Dr. George W. Hilde and Dr. John D. Sturgeon, appointed by the court as a commission to determine whether or not the man is insane, reported yesterday in court at Uniontown that the man had lost his mind.

According to his confession, Salek had conspired with the wife of a Republican foreigner to murder the man last summer. He got his victim intoxicated and strangled him to death in an outhouse, according to his statement.

DR. EDIE RETURNS

Out of Army, He Plans to Resume His Practice Here.

Dr. E. B. Edie has returned to Connellsville after being discharged from the Medical Department of the Army. He plans to open offices and to resume the practice of medicine here.

Foreign Exchange Low.

NEW YORK, Dec. 11.—New low records on foreign exchange rates were made today when demand on the pound sterling fell to \$3.71 3/4, four and one-half cents below yesterday's closing figures and lire, checks dropping 10 centimes, being quoted at the rate of 33.53 for the dollar. The rate on franc checks was slightly improved and early quotations were made at the rate of 11.82 for the dollar.

Leaves Hospital.

Mrs. Patrick O'Toole, who underwent an operation at the Cottage State hospital, has returned to her home.

CITY FOLKS PUTTING LOTS OF MONEY IN GAS WELLS BUT GOLD MINE GETS ITS SHARE

Between gas and gold, Connellsville people have been investing considerable money of late in enterprises remote from the city. Thousands of dollars have gone into gas well projects in the McKeesport field and still other thousands will be invested there before the excitement due to striking what is declared the biggest gas find in history has subsided.

While much has gone out in gas stock, a gold mining project in California has interested a lot of persons. Twenty-five thousand dollars, it is estimated, was raised here by stock sales for development of properties of the Sandwich Gold Mining company and a large number of shares were sold, to Somerset county investors through the efforts of A. J. Whiskey, a former Somerset counsellor, who has been interested in gold mines for years. Mr. Whiskey closed his canvass here several days ago. He was for 10 years a missionary in Alaska and there got an insight into gold mining. On his return he and others became interested in California properties.

The way he presented it to a lot of substantial men of Connellsville, Septidale and other places in this section so convinced them that they became interested to the extent of subscribing liberally.

CHICAGO SECURES NEXT CONVENTION OF REPUBLICANS

G. O. P. Representatives Will Assemble in Windy City on Next June 8.

Special to The Courier.

WASHINGTON, Dec. 11.—Republican delegates chosen to nominate a candidate for President will meet in convention in Chicago June 8. St. Louis, the only real contender with Chicago, received but nine votes in the national committee yesterday afternoon, while Chicago was supported by 147.

National Republican leaders will direct their attention from this time forward to the business of preparing to elect, if possible, the candidate to be named at Chicago and the national committee ended its quadrennial session last evening, with plans completed for organizing the party up and down and through the middle.

Before adjourning, the committee picked an advisory committee to barmonize all elements in the party, a committee on platform and policies to report to the convention, and a committee on convention arrangements, which because of the repression of politics the past three years has assumed more importance than any party gathering except an actual nominating convention, adjourned with the adjournment of this advisory committee.

SENATOR KNOX PAYS

HIGH TRIBUTE TO SPROUL.

WASHINGTON, D. C., Dec. 11.—Senator P. C. Knox last night paid a high tribute to Governor Sprout, at a dinner given by the Pennsylvania delegation in Congress at the Raleigh Hotel, in honor of the Governor. Representative Thomas S. Butler, presided and speeches were made by Senator Knox, Governor Sprout, Representative George S. Graham of Philadelphia and A. P. Moore of Pittsburgh.

Senator Knox said in part: "I can say with absolutely unfeigned and unassumed attitude toward a situation like this that I am more than grateful that you asked me to this dinner, not only because it gives me the privilege of meeting the delegation from the state, but because no man in the state is more delighted to represent by his presence the honor that you are doing our brilliant governor."

In conclusion Senator Knox said that any man should shrink before the youth, progressive and virile Republicanism of Governor Sprout, who today, typified all that is best in the Republican party. Governor Sprout made a brief address in which he voiced his appreciation of the honor paid him by the Congressional delegation and his Pennsylvania friends.

REPUBLICANS MAKING

RESERVATIONS FOR JUNE Hotel reservations for Republican convention week next June are pouring into Chicago. One hotel announced that it had received applications from Senator P. C. Sprout, former ambassador to France, Myron T. Harlick, Governor Coalidge of Massachusetts, Governor Harding of Ohio and others. Twenty newspapermen also have made reservations.

BOOK SALESMEN HAVE CREW MANAGER NABBED ON A LARCENY CHARGE

Case Settled When Accused Returns Suitcases He Had Confiscated.

Fred Cooper, manager of a book publishing house in Chicago, was arrested as he stepped from a West Penn car in Uniontown at 10:30 o'clock last night, charged with larceny, on information filed against him by eight members of a sales force who appeared before Chief of Police Bowers. Upon hearing their complaint, the chief telephoned immediately to Uniontown police headquarters and had Cooper held for an investigation.

It is alleged by members of the sales force that Cooper confiscated suitcases valued at several hundred dollars from rooms engaged by the crew in a local hotel.

Following his arrest, Cooper told the Uniontown police he had taken the suitcases as security for \$44 he had advanced the salesmen, each having received \$2, and said that they had violated certain terms of their agreement with him.

When the members of the sales force entered complaint against Cooper at headquarters here, it is said, they denied having broken any terms of their agreement and they declared Cooper possessed no claim against them, financial or otherwise. They promised to appear before an alderman in Connellsville this morning and swear out a warrant for the arrest of Cooper on a charge of larceny.

Cooper, when arraigned this morning before Alderman Fred Monk, returned the suitcases to the respective owners and paid the costs.

THE HOME-COMING

FOR SERVICE MEN

COST \$13,489.09

A Deficit of \$256.92 Covered by Note Endorsed by Members of the Central Committee.

The report of E. T. Norton, treasurer of the Fayette County Home-Coming celebration, rendered returning soldiers, sailors and marines on July 5, 7, 8 and 9, has been completed, audited and approved. His statement shows the receipts from all sources to have been a \$13,489.09 and expenditures \$13,746.01.

The deficit of \$256.92 has been met by discounting a note for that amount, the same being endorsed by J. E. Angle, chairman; H. B. Brown, Jr., secretary; and Robert Norton, Otto Koehler, A. O. Bix, Jr., J. L. Evans, J. J. Dougherty, S. Desmone, J. Fred Kurtz and John Duggan, Sr., members of the central committee. No arrangements have yet been made to meet this note at maturity.

The detailed items of receipts and expenditures will be published in tomorrow's issue of The Courier.

E. J. HORNER TO LEAVE

Legion Post Commander Going With Westinghouse Electric Company.

Edgar J. Horner, commander of Milton L. Bishop Post, The American Legion, has secured a position in the engineering department of the Westinghouse Electric Manufacturing company machine works at East Pittsburgh.

He will leave here in time to assume his duties on Monday next. In January the machine works will be moved to Philadelphia, necessitating another change by Mr. Horner.

At the last meeting of Bishop Post, Commander Horner's resignation was submitted, but the members voted to defer acceptance until some time in the future, feeling that his connection with the Legion as the highest post executive might be of assistance to him on taking up his residence in another community. At that time Mr. Horner was not ready to make public his plans for the future. Since his return from France, he has been assisting his father in the Horner company store.

The action is pointed out as an evidence of the "stick together" spirit that dominates the activities of the veterans' organization.

THROWS \$3,000 IN RIVER

Fortune In Old Boots Austrian Discarded Because Duty Was Too High.

GREENSBURG, Dec. 11.—Andy Dumbinsky's desire to take a warm and obnoxious pair of boots from his boarding house in Webster back to Austria, just to show his relatives the style of footwear used in this country, has brought about international complications.

When the mine strike was called Andy decided to go back home for a visit. He also decided to take George Dumbinsky's boots with him. A month ago Andy embarked for Rotterdam. As the liner neared Holland, Andy displayed the dilapidated boots to a fellow passenger and was told the duty would be \$25. He threw the boots into the river.

When Dumbinsky learned in Webster that his boots were gone, he became violently ill. The boots contained \$3,000, Dumbinsky's life savings.

A cablegram was sent by local authorities to Rotterdam. The answer came back: "Duty high; boots thrown in river."

Dumbinsky is still violently ill.

MERCHANTS EXPECT RECORD-BREAKING CHRISTMAS BUYING

With Cost of Living 131 Per Cent Above Pre-War Level, Sales Are Greater.

The cost of living today is just 131 per cent above the pre-war level, based on 96 staple commodities, according to figures made public by Bradstreet's, but no adverse effect on business is felt in Connellsville as the just-before-Christmas rush is on, according to merchants, who declare that the volume will exceed that of any previous year.

TOTALS MOUNT MONTHLY

Upward Trend of Sales Will Find Climax In December, As In Other Years, "People Have Money and They're Spending It," Dealers Say.

In its upward trend with the close of the year sales are simply, it is stated, following out the record for every month of 1919 thus far. Last year was everywhere pronounced the largest department store every month of 1919 has exceeded the corresponding month of the previous year. Looking ahead a year ago it did not seem possible, said the merchant, to beat last year's record but the fact remains that it has been done, and just as surely will holiday sales of 1919 overtop those of a year ago.

"People seem to have money, and they're spending it. That is all there is to it," said the department store head. "Buying is not confined to any one or two lines of merchandise. There is not a department in our store that has fallen behind last year." Similar reports come from other merchants. They admit prices are unreasonably high; out of reach of the unfortunate persons whose lot it has been to go through the war period where wages have not advanced with the wages paid miners, mill workers, railroad men and others in industry. They declare any responsibility for these conditions, which work hardships on them also, they say.

There is said to be one solution to the problem. A merchant advanced it. There is too much buying. The demand is a third greater than the manufacturers can supply. As long as this condition exists prices will remain where they are or go higher. They cannot come down, he said. The remedy lies in less buying until the manufacturers catch up. It will then be possible for the merchant to buy under satisfactory conditions and prices he is compelled to do now—place orders six months ahead to be reasonably sure of getting what he wants.

While a limited number may adopt this plan, there is little likelihood of the general public doing so, it is believed, so there comes to be at this time no remedy in sight.

Two weeks from today is Christmas. There remain but 11 shopping days. Into those is going to be crowded a lot of business. A number of stores that ordinarily close at 6 o'clock are now open evenings. The latter ones will not adopt this plan until Christmas week. All will be open until 9 o'clock, some later, Monday, Tuesday and Wednesday, December 22, 23 and 24.

The statute governing employment of women after certain hours must be altered. Inspector James S. Davis is always on the job and will see to it that any who would attempt to break over are not permitted to do so. The larger stores arrange the hours of the girls so that a part of the force comes on later in the morning and works later in the evening, this having been a custom since the female labor law came into effect.

NO DECISION

Supreme Court Does Not Act On Anarchists' Plea
By Associated Press.
WASHINGTON, Dec. 11.—No decision was announced by the supreme court when it reconvened today on the application made yesterday by counsel for Alexander Berkman and Emma Goldman for permission to appeal from federal court decrees in New York dismissing habeas corpus proceedings brought to prevent their deportation. There was no indication when the court would give a decision. Deportation of Berkman and Goldman has been ordered but the lower court granted a stay until 4 P. M. today so they might make an effort to place their case before the supreme court.

Referee Overrules Creditors' Objections to Thompson Sale
By Associated Press.

PITTSBURG, Dec. 11.—William R. Blair, referee in bankruptcy, has overruled approximately 30 objections filed by creditors against the order authorizing the sale of the J. V. Thompson estate.

It is understood the objectors wanted the estate sold in part and not as a whole while the referee held more money could be realized if this plan was followed.

The sale will come up in the federal district court next Tuesday and arguments will be heard Wednesday.

Seals on Letters, Too

Not only envelopes of mail received here but the enclosures as well are being decorated with Red Cross Xmas seals.

AMERICAN RED CROSS MERRY CHRISTMAS

If you could look into a million homes
COULD you look into one home in every twenty in America and see in all of them a coffee being served that is good enough to make breakfast as happy as this—
Could you see all these homes using the same coffee—
You would never rest until you had tried that coffee.
Your grocer has it for you—Arbucksles! It is by far the most popular coffee sold in America today!
Like the women in these other million homes, you will find that Arbucksles has the rich full flavor you have always wanted
Until you serve it you will never know how much pleasure coffee can give!

Splendid Cough Medicine

"As I feel that every family should know what a splendid medicine Chamberlain's Cough Remedy is, I am only too pleased to relate my experience and only wish that I had known of its merits years ago," writes Mrs. Clay Fris, Ferguson Station, Mo. "I give it to my children when they show the slightest symptoms of being croupy, and when I have a cough or cold on the lungs a very few doses will relieve me, and by taking it for a few days I soon get rid of the cold."—Adv.

THURSDAY EVENG, DEC. 11, 1919.

REPUBLICAN DEVOTION AND CONFIDENCE.

The Republican party faces the

approaching campaign with devo-

tion and confidence. It comes for-

ward to the contest with clean

hands and a stout heart, convinced

that upon the termination of the

issues to be fought out next year

depends not only the progress but

the safety of the republic.

No political party in any country

has ever better justified its right

to existence nor witnessed a more

thorough vindication of the poli-

cies for which it has stood through-

all its history than has the Re-

publican party of today.

With these proportions as a basis

Governor W. C. Spruill yesterday

made an address before the Republican

National Committee, which was a clear-

cut, unequivocal declaration of Amer-

icanism, will thrill citizens generally

and Republicans in particular. With

a force and logic rarely equalled in

the presentation of issues which will

come before the voters at an election,

Governor Spruill has sounded a call

that will rally the adherents of un-

adulterated Americanism to the Re-

publican party standard.

With the directness of statement

that has characterized our chief state

executive in all his public utterances

and acts he drew the whole nation's

attention to the fundamental needs of

the after the war period. The first of

these he declared to be the necessity

that "we must prepare not only to

clean up the governmental mess in

which we find ourselves, and we must

lay plans for restoring our nation to

the position of respect it once held."

In order to effectively "clean up"

there must be that kind of prepara-

tion for the coming campaign that will

insure a return to the orderly consti-

tutional forms which until the advent

of the present administration have

been followed consistently and safely.

"It is essential, however," said Gov-

ernor Spruill, "that we approach the

next campaign not in an attitude of

criticism but in a spirit of construc-

tive suggestion. The people every-

where are aware of the conditions now

prevailing. Everybody is criticizing

and lamenting the administration

weakness. What we must present, and

as the immediate governmental con-

ditions are, is a new constructive vision,

a plan which will lift the nation out of

a slough of inefficiency in which it is

foundering and put it back upon the

high road to progress.

Although the problems of our for-

eign relations are weighty and must

be "disposed of so that "we must

change the opinion held by so many

people abroad that we are a nation of

four-fifths and bluffers who do not

know what we are talking about and

be painful, but it must be thorough-

ly set forth from extraneous issues

needed and an abatement of the taxes

which throttle enterprise and work

handicaps upon all of the people must

now be forthcoming.

The people want relief from the in-

ferable meddling of governmental

departments in their private and

social affairs. They want a cessation of

the attempt to regulate the

enterprise. They want to return to the

status and to the people themselves of

the powers so generously given to the

executive in time of war, and which

have been expanded far beyond any-

thing contemplated in the grant of au-

thority given by Congress. The people

want for a strong Federal government,

but they want the government to be

ordinate with and not ride over the

states and the citizens.

Well has our up-standing, thorow-

ly American governor said that upon

these issues, the Republican party

faces the approaching campaign with

devotion and confidence.

THE WELCOME

Little eyes that shine at night

Make the sort of honest light

That I really want to see.

When the day is through with me

There is nothing that I know

On this earth that thrills me so

As that flash of love which lies

Out of little dancing eyes

As a signal to express

Love and trust and happiness

Little eyes can tell that way

More than words can ever say.

In those little flashing eyes

All my inspiration lies.

Days are long and tedious are

Frequently my way is barred;

Often strangers sneer or frown

At my labors in the town;

Some and faint with what I do

Some suspect my motives, too.

Songs are quick to criticize—

But these glorious little eyes

Asking neither pomp nor show

Welcome me for what I am.

"This is home," they seem to say,

"Now put all your cares away!

Here we are to welcome you,

Glad that all your work is through.

Come and rest and romp in fun.

All the dreary tasks are done.

We've got hugs and kisses, too.

Save us here to give to you.

Here we are, with eyes aglow,

Telling you we love you so.

Just forget the world of men—

We are glad you're home again!"

The Effects of Opiates.

THAT INFANTS are peculiarly susceptible to opium and its various
preparations, all of which are narcotic, is well known. Even in the
smallest doses, if continued, these opiates cause changes in the func-
tions and growth of the cells which are likely to become permanent, causing
imbecility, mental perversion, a craving for alcohol or narcotics in later life.
Nervous diseases, such as intractable nervous dyspepsia and lack of staying
powers are a result of doing with opiates or narcotics to keep children quiet
in their infancy. The rule among physicians is that children should never
receive opiates in the smallest doses for more than a day at a time, and
only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrup and
other narcotics to children by any but a physician cannot be too strongly
decried, and the druggist should not be a party to it. Children who are ill
need the attention of a physician, and it is nothing less than a crime to
dose them willfully with narcotics.

Castoria contains no narcotics if it bears the
signature of Chas. H. Fletcher.

RECOVERY OF IRON AND STEEL INDUSTRY FROM STRIKE IS SLOW

Fair Rate of Operation Expected in January With Month to Month Increase Thereafter.

Special to The Weekly Courier.

NEW YORK, Dec. 10.—The American Metal Market and Daily Iron & Steel Report will review the steel and iron trade tomorrow as follows:

Recovery of the iron and steel industry from its strike has been a slow affair on account of the inefficiency and disorganization of working forces left behind. Recovery from the coal strike will be in sharp contrast, as coal supplies are not exhausted entirely, and quick connection can be made with the new output, while the production that has been occurring during the strike will continue. October production of pig iron and steel made a new high record of 58,270,000 tons, while November production was 58,815,000 tons, the two months showing 75,085,000 tons, while the first nine months of the year had shown a monthly average of 51,500,000 tons. Several blast furnaces have already been banked on account of coke shortage, and more are to follow. Coke will hardly be plentiful for several weeks, so that pig iron production will not recover as rapidly as steel production and steel finishing operations.

Various incidents show that a few descriptions of finished steel products are extremely scarce, but the scarcity is in these particular forms of finished steel rather than in steel simply regarded as steel. Billets have sold at slight premiums over the March 21st price, but wire nails have sold at 10 times as great a premium, per ton.

The steel industry expects to have a very fair operation in January, and to increase its production month by month thereafter. With the coal strike out of the way the industry's problem will be to restore efficiency in operations. The iron and steel strike itself is practically out of the way, and it is understood that representatives of the 24 unions which were claimants to be participating in the strike will meet in Washington next Saturday and formally declare the strike off so as to put certain skilled men in full union standing.

The buying movement in pig iron is tapering off and the spectacular price advance may be at the present level. One result of this advance may be to bring about higher prices for Lake Superior ores, which six weeks ago were expected to be unchanged for the 1920 season. Establishment of government prices on coke has stopped the contracting movement.

STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to put up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets, the substitute for calomel. Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping, cramping or pain.

Take one or two at bedtime for quick relief. Eat what you like. 10c and 25c.

COKE TRADE SUMMARY.

The order to restrict the production of coke, 25 per cent, which became effective on Monday, is being obeyed in both letter and spirit by the coke operators. Even if they were disposed otherwise than to cooperate in the effort to swell coal production, which they are not, they would have little choice than to scale down coke output. The railroads pinning ears for coke loading on four days of the week and for coal loading on two days. The plans have fallen in line on this arrangement and are making all the coke they can so that the loading of the coal the mines can produce on the coal days. The energy with which the schedule is being followed is well illustrated by the first day's operation when the mines served by the Monacaheela railroad loaded 1,600 cars. Figures are not hand for all sections but the average of the region as a whole is believed to be good.

The revival of price fixing cut short a skyrocketing tendency in the market which developed toward the close of the week. Conservative operators had counseled against it as the certain precursor of a return to war-time prices, but to no avail. The fact that price regulations were now in effect curtailed the chances of realizing better than 50 per cent advance, to be made for first half, the impression being that the war will not be lifted for some time, following the settlement of the coal strike, no matter how quickly that may come.

Consider This Woman's Case.

Mrs. A. L. DeVine of Los Angeles, Cal., says: "After I had suffered from a female trouble for years, not being able to do my housework, or get any relief from doctors, Lydia E. Pinkham's Vegetable Compound made me a well woman, and I want to tell the world the good this medicine does." This woman is perfectly justified, and should be commended for telling others how she regained her health.

WILMINGTON, Del., Dec. 11.—Rev. George Henry Dole, of the Church of the New Jerusalem, was denounced by three of his tenants before the anti-rent-gouging committee last night. The tenants allege he has increased his rent in some instances 100 per cent, but that the dwellings themselves are ill-kept.

Rev. Dole is one of the largest owners of small dwelling houses in the city. William G. McDowell testified he had been paying \$16 a month a year ago, while Mr. Dole is now asking \$24. Mr. Dole and the tenants have been cited to appear before the committee Monday night.

STATE FORESTRY METHODS WASTEFUL AND EXTRAVAGANT; GRANGE COMMITTEE CHARGES

Special to The Courier
PITTSBURGH, Dec. 10.—Charging that the methods of forestry employed by the Pennsylvania Department of Forestry are wasteful and extravagant, that the system under which sales of timber have been made does not differ from ordinary destructive lumbering and that the present commission of forestry is incompetent, the annual report of the State Grange Committee on Conservation was heard by the members of the Pennsylvania State Grange in annual session here yesterday. The report of the committee is signed by G. Ford Pincho, chairman, Fred Breckman and William T. Cressy. There is especial point to the report because the chairman of the committee formerly United States forester, was recently appointed a member of the Pennsylvania Forest Commission by Governor Sproul and together with Colonel Henry W. Shoemaker his colleague on the commission has been waging a fight against the present forestry methods.

After reciting its work during the year which included an unsuccessful attempt to secure remedial forestry legislation, the committee bases its recommendations on a recital of facts upon the authority of members of the forestry commission.

It says: "Hitherto the Forest Commission appears to have been a close corporation of whose doings the people of the state knew little or nothing, and by reason of whose failure to take any real part in the administration of the state forests the latter were being devastated and mismanaged on a steadily growing scale. The commission had participated actively only in the purchase of forest lands. As to substantially everything else the part taken by it appears to have been purely perfunctory."

Except by Colonel Henry W. Shoemaker, acting alone, little or no effort had been made to remedy the known defects in the administration of the department until the governor appointed the chairman of your committee to the Forest Commission last August. Since that time the reports in support of efforts made by Colonel Shoemaker and the chairman of your committee to improve the administration and prevent the devastation of the state forests and in particular to prevent further devastation under the indefensible and illegal Wells and Krebs sales, have been blocked by the majority of the commission.

The appointment of the chairman of your committee as a member of the Forest Commission makes it possible to speak with full knowledge as to the present condition of the state forests and how they are handled by the Department of Forestry.

In addition to the items of bad administration set forth in the last report of your committee and still uncorrected further investigation has disclosed:

1. That the system under which sales of state timber were being made was practically no different from ordinary destructive lumbering, and that under the state forests were being devastated.

2. That it was proposed to extend the same destructive system to the most valuable of the remaining bodies of mature timber on state lands, a proposal which Colonel Shoemaker and the chairman of your committee were able to check only just in time.

3. That in certain of the most destructive cases timber sales were not submitted to the commission, as the law requires, but were made by the present commission without authority.

4. That state foresters who had grossly neglected their duty even under the defective existing timber contracts were not disciplined or their neglect nor even required to do better.

That under the law enacted in 1913 the Commission of Forestry has complete authority and therefore complete responsibility for requiring the owners of commercial timber lands to keep them reasonably safe against fire, that so far as known to your committee this law gives greater effective power against forest fires than any other law in any other state; that in no single case so far as our investigations disclose was effective use made of it by the present commission; and that the refusal of the commissioner to use the power conferred upon him by the legislature is without doubt the greatest single cause of the prevalence of destructive forest fires in Pennsylvania.

6. That with few exceptions no plans exist for the protection of the different state forests against fire, and that in consequence the state forests according to figures given in the last report of the chief fire warden are only half again as safe from fire as the comparatively unprotected private lands in spite of the force of trained men available for their protection.

The discovery of the foregoing facts has resulted merely in an effort on the part of the present commissioner to defend and maintain the present illegal and destructive policy in timber sales and the devastation of the state forests.

If the foregoing statements of fact are true as your committee knows them to be true then it is evident that the present Commissioner of Forestry is deficient in knowledge both of forestry and of forest administration. It is incompetent to give the state forests effective protection and sound administration that the state forests are not safe in his hands, and that they will not be safe until he has been removed.

DORSEY WINS

Carter Stays 15 Rounds With Gotham Lightweight Champ.

Billy Carter of Conneltsville stayed 15 rounds with Eddie Dorsey but lost the decision in their bout at Cumberland last night.

The Cumberland papers say it was more to the credit of Carter to stay the distance than it was for Dorsey to get the decision. "To remain 15 rounds with a sturdy lightweight as able as Dorsey," says the Cumberland Daily News this morning.

The newspaper accounts do not agree with the story of Duke Barry, Carter's manager. He describes the affair as one of the hardest ever staged in Cumberland and declares Carter upset the dope by staying until the finish and by outfighting the champion in every round up to the 10th. In the sixth Carter dropped Dorsey with a left hook that jarred him considerably, the bell coming to his rescue, according to Barry.

Carter's fighting so impressed the promoters that liberal inducements were offered his manager to fight Dorsey in a return bout on New Years Day.

The attendance was 498 men and two women, according to The News.

Famous Old Recipe for Cough Syrup

Really and cheaply made at home, but it beats them all for quick results.

Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations, by using the well-known old recipe for making cough syrup at home. It is simple and cheap but it has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2 1/2 ounces of Pinex from any druggist, pour it into a pint bottle and add plain granulated sugar syrup to make a full pint. If you prefer, use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic cough, hoarseness or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, known the world over for its healing effect on the membranes.

Avoid disappointment by asking your druggist for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

HOME MADE RECIPE CATARRH AND COLDS

Nonexpensive—Cut This Out.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Ask your druggist for three quarters of an ounce of Mentholized Arcline and pour it into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and sniff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat so clean and healthy that germs of flu or any other germs will have a hard time gaining a foothold.

WAS NERVOUS AND RUN DOWN

RESTORED TO NORMAL HEALTH BY BIO-FEREN

"I feel I owe you people a word of gratitude for the benefit I have received in using your wonderful remedy—Bio-feren Tablets, which have completely restored me to normal conditions," says Joseph E. Webb of Muncie, Indiana.

Bio-feren is without doubt the grandest and quickest remedy for nervous, run down, weak, anemic men and women ever offered direct through the druggists and is not at all expensive.

Take two after each meal and one at bed time, and after seven days take one after each meal and one at bed time until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if you are not in better health—if you do not feel ambitious, more vigorous and keen minded, yes, twice as much as you did before, the druggist who sold you the tablets will gladly hand you back just what you paid for them.

All druggists in this city and vicinity have a supply on hand, or can easily get it for you.

To the Public:

Conforming with the restriction order announced December 7th through the Railroad Administration of the United States Government for the purpose of conserving coal during the present strike, it is the desire of this Company to co-operate fully with the efforts and instructions of the Government.

Particular attention is here called to the regulations affecting store window and sign lighting. All such lighting furnished from controlled circuits of this Company will be discontinued until the present restrictions are lifted. Where such lighting is furnished through metered service we earnestly request our consumers not to make use of the sign and window lights during the same period.

All lighting should be reduced to a minimum and attention is also particularly called to the fact that the order permits the use of electric lights in dance halls, pool rooms and bowling alleys between the hours of 7 P. M. and 11 P. M. only.

The use of electric elevators should be kept to a minimum, and all other provisions in the order as issued and which has appeared very generally in the public press, should be observed.

We trust that it will be necessary to maintain these restrictions for a short time only and invite careful cooperation in carrying out the provisions of the Government's order.

Christmas Belongs to the Children, It's Their Gala Day-- Shall You Keep it as a Day of Joy for Them?

Baby's First Christmas--

won't mean much to him, but what a lot it will mean to those who shower him with gifts out of pure love.

So Practical Gifts Are in Order

Dainty garments, cunning novelties and a host of wee articles for the baby's comfort and Mother's pleasure.

ALL ATTRACTIVELY BOXED.

Among Them Are--

Exquisite Little Sacks--putting them on will cause quite a commotion, no doubt, but the winsome effect is worth the struggle. Crocheted, \$1.25 to \$2.50; Wool Knit, \$2.75 to \$5.00; Embroidered Cashmere, \$1.25 to \$3.50.

Cozy Kimonos--to keep him warm and snug when in his nightgown. Flannel, \$1.25; Elderdown, \$2.95.

Mittens--and how he will yell when you put them on, but his tiny fingers must not get cold--Silk and Wool Mittens, 10c to \$1.50.

Baby's Bonnet--silk, silk crocheted with wool lining or wool knit, the style won't matter, but the warmth is most important--Wool Knit, 50c to \$3.85; Silk, 75c to \$5.00; Silk Crocheted with wool lining, \$2.00 to \$6.10.

Wee Frocks of Nainsook, long or short, fine enough for the Christmas--\$1.00 to \$2.00.

A Baby Bunting for his daily airing leaves nothing for Jack Frost to pinch but the tip of his nose, so it is fine and beautiful, too, at \$4.95.

Toilet Sets and Novelties for Baby's every need of wood-combs and brushes for his curls, ducks to swim with him daily, rattles whose bells will jingle at his every motion, are shown in many styles at various prices.

Gifts for Boys

--the kind they really want and which will win their unstinted gratitude, very often includes not merely mechanical toys, books and tool chests, but a certain pair of tan shoes, a much admired machinaw or a new suit.

Sturdy Lads Are Usually Practical Folk

who appreciate such things as reinforced clothes about which hangs no chorus of maternal "don't's"--new iron-clad stockings which will relieve the fear of holes.

So, Let Us Suggest for the Growing Lad-- CLOTHES

as well as Toys and Books

For Men--Get Conservative Gifts

It won't be the amount you pay which matters to the man who receives your purchase, but it will be the appropriateness of the gift and its quality.

Better a single linen handkerchief, monogrammed with rare than a traveling case of not the best quality. Men--that is particular men--want things just right, and when you buy ties, underwear, gloves, shoes, scarfs, jewelry or anything else in either of our Men's Stores, first floor, you can rest assured, not even he, "himself" can buy better anywhere.

For a Member of the Family--Why Not Give Him--

SHOES! Goodness knows, they will cost as much as a luxury used to and no one will ever question their desirable qualities; priced at \$4.00 to \$15.00.

SILK SHIRTS! They are beautiful and no man ever had too many. Make sure of his favorite color and size and we will see you get just what he wants; \$8.00 to \$15.00.

SCARVES! Of brushed wool in all the richest shades of the season, a neck scarf will meet a real need as well as delight the eye of the recipient; \$2.00 to \$12.00.

REGION FALLS IN LINE ON ORDER TO RESTRICT COKE PRODUCTION

Pushes Coal Loading on Two Days and Coke Making on Four Days.

BIG SHOWING AT START

By Mines on the Mononahela Railway Which Load 1,000 Cars; Every Plant Following the Schedule and With a View to Helping Out the Situation.

From The Weekly Courier.

The Connelleville region has fallen in line on the coke restriction measure without hesitation and in the same spirit of cooperation which has characterized it whenever an emergency, local or national, has demanded such action. The plants are producing as much coke as they can on four days set aside for that purpose. On the other working days they are bending their energies to loading coal with pay and view--the way the region does things when trying to help out on a situation like that created by war, either in Europe or in the unionized coal mining districts here at home.

The temper, mood and capabilities of the region along this line were well illustrated on Tuesday which was the first coal loading day at the plants served by the Mononahela railroad. As a start on the new program these mines loaded 1,600 cars of coal. Figures are not yet available for other sections of the region but it is believed the showing was proportionately as good, except possibly at the plants where the coal loading facilities are not adapted to handling large consignments.

So far as reports have been received every plant in the region is loading coal, or getting in readiness to do so as quickly as possible. The fact that the coal is being sacrificed at the government limit of \$2.35, as compared with coke at the other government limit of \$5.00 does not tend, as some might suppose, to slow down coal production. The aim of the producers is to comply fully with the wishes of the government that the available supply of coal be increased quickly in order that relief may be provided less favored sections of the country, and the operation of the essential industries interfered with as little as possible.

The fact that the schedules of car distribution by the railroads provide different coal loading days at different plants does not affect the situation very much. Where Saturday is a lay-off day the "coke yard" employees have a double rest day, which is not altogether unacceptable to the men. It results, however, in rather long burning by the ovens charged on Friday, and possibly some little waste in coking, but this is compensated in part by making the charges heavier than for the ordinary 72-hour coking period.

Except that a number of plants, particularly in the Lower Connelleville district, suffered from the absence of a number of their workers who were observing church holidays during the week, the operation of the region was normal with a tendency, if anything, toward speeding up a little more. This was achieved at the plants of the tinaco interests with greater success than at the merchant ovens, production showing a very healthy increase. In addition upwards of 12,000 tons of stock were loaded out from furnace oven yards, so it can correctly be said

the region as a whole shipped more coke this week than 25,355 tons. The re-composition of the war-time maximum on prices caused the skyrocketing which featured the close of the week to cease with remarkable suddenness. This may not prove an unmixed blessing but there are those in the trade who, having cautioned against the making of fancy quotations, see in the present situation the possibility that the realized price for coke during the first half of 1920 will be lower than had the market maintained a conservative course and made unnecessary the revival of price regulation, which came very promptly after the furnace price began to climb above the range of the past few weeks. Until the regulations are withdrawn neither spot nor future sales can be made at more than the government maximum. Had the restoration of price fixing been avoided, as it might have been by holding down the market during the hectic days of last week, additional contracts for the first half on a ratio basis providing for better than \$5.00 on settlement, could no doubt have easily been made. The estimated production during the week ending Saturday, December 6, was 262,810 tons, contributed by the two districts in the following proportions: Connelleville, 164,850, a gain of 25,735 tons; Lower Connelleville, 97,960, a loss of 380 tons, or a net gain of 25,355 tons.

Clean Up Poison Soaked Kidneys Advises Dr. Carey

Thousands Die Every Year Because They Allow Poison Deposits to Accumulate in Kidneys.

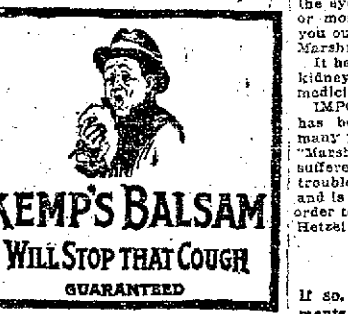

Don't flush your kidneys with harsh makeshifts says Dr. Carey, they are too frail and delicately constructed to treat thus roughly. For 40 years I have been prescribing Marshroot for kidney and bladder sickness and now that I have retired from active practice I have made arrangements with leading druggists to dispense this wonderful prescription at a moderate price.

Beware of kidney disease, thousands die of it every year who ought to be enjoying the blessings of life and health.

"If you have specks floating before the eyes, puffa under eyes, dizzy spells or moist palms, backache or sideache you ought to get a bottle of Dr. Carey's Marshroot right away."

It has cured thousands of cases of kidney and bladder diseases and is the medicine you can always depend upon.

IMPORTANT--Dr. Daniel H. Carey has been a practicing physician for many years and his strict prescription, "Marshroot," has cured thousands of sufferers from kidney and bladder troubles. It is not a patent medicine and is only sold through drug stores in order to accommodate his patients. C. Roy Hettel can supply you--Adv.

Says His Prescription Has Powerful Influence Over Rheumatism

Discoverer Tells Druggists Not to Take a Cent of Anyone's Money Unless Allergic Completely Banishes All Rheumatic Pains and Twinges.

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of countless study, that no one can be free from rheumatism until the accumulated impurities, commonly uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspaper. Connelleville Drug Company has been appointed agent for Allen's in this vicinity with the understanding that they will freely return the purchase money to all who state they received no benefit--Adv.
